Hello all! Another month is in the books and we continue to press on with our essential business.

We did see gallons increase over the month of July and we hope to see this trend tick up going into August. With “back to school” travel taking place in the beginning of the month, it is important for everyone to focus on their job, communicate effectively, dispatch and deliver correctly, and above all be safe in ALL that you do.

This coming month could be and should be a great month for JH Seale. With potential new customers coming on, new drivers arriving, and business steadily growing, we should see great things from everyone. I want to thank you all for the job you do! Please be safe, be efficient, be thorough, and be the very best at what you do.

Remember, 1 team same dream!

Bill Russell
Division President

Thankful to work with this amazing team who works hard behind the scenes!

SAFETY CORNER

Overfills spills are preventable. Stick the tanks, get correct readings. Won't fit? **DON'T DROP**

Close quarter maneuvering. Any time you are behind the wheel — but especially in close quarters — you don't want your vehicle to travel anywhere that your eyes haven't traveled first.
